RWP Taemane, established in 1987 with offices in Sandton, Johannesburg. We are a Level Two Black Empowered Entity with 52% Black Ownership and 125% Procurement Recognition Level. Our firm employs 28 Technical staff of whom 17 are Project Engineers or Directors. Our engineers are ECSA accredited and our firm is ISO 9001 certified with member affiliation to Green Building Council South Africa. We are proud to have been voted the best electrical engineers in the PMR awards for twelve years.

We offer the full scope of consulting electrical and electronic engineering services for the built environment for the following types of projects :

- Green-Star Office Rated Buildings
- Shopping Centres
- Warehouses
- Data Centres
- Schools & Students Residence
- Hospitals
- Hotels
- Vehicle Dealerships
- Residential & Executive Apartments
- Township Reticulation

### **EXPERTISE :-**

- MV/ LV Electrical Building Services
- Standby and UPS Systems
- Fire Detection, Background Music, Evacuation, PA and Gas Protection
- Access Control, CCTV Design
- Structured Power and Data Systems
- Sub Station Design
- Green Energy Systems

All projects are under the direct and visible control of a Director. The practice prides itself that all Project Directors are first and foremost Electrical Engineers who are actively involved with all aspects of their projects. We exercise financial control from project inception to final account. Our designs are structured to suit our clients specific need whilst applying optimum proven technology within the constraints of the budget allowance.
